UPPER BURMAH has now been a British possession for five years, the date of th proclamation of annexation being the 1st January, 1886. The results have amply justified the step then taken. The Rangoon Gazette makes the departure of Sir Charles CROSTHWAITE, the Chief Commissioner, the December last, as certified by the managers of occasion for a review of the progress made the different banks, are published in Saturday's both in the upper and lower provinces, and the judgment pronounced is an entirely favourable one. Order has been firmly established and districts which had been in the latter years of the Burmese monarchy a prey to dacoits are now as peaceful and free from crime as any district in India. To have accomplished work such as this in the brief space of five years, during four of which Sir CHABLES CROSTHWAITE has held the reins of Government in Burmah, is our contemporary just! observes, an achievement which may well be regarded by Britons with pride and pleasure. The country has been opened up by the construction of the railway to Mandalay and by many excellent roads, and the growth of the public revenues, which has exceeded the most sanguine expectations, is a sure indication of the increasing prosperity of the neonle.

The cise constitution of the proposed Municipality is, however, a matter of detail to be fissussed subsequently; the first thing is to secure a recognition of the principle of self-government, and the year in which the Colony enters on its second half-century of existence seems a favourable time for once more pressing the subject on the attention of the Government; A.
